# London for People and Communities

## JUST SPACE CONFERENCE

Are you affected by the housing crisis? Do luxury blocks appear in your neighbourhood and stay mostly vacant? Are you losing shops, green space and services? Councils are demolishing estates.

Families are moving out and schools closing. The planning process is murky, Councils don't help.

With elections coming, **a better London Plan** is urgently needed - one that tackles the problems in a new way for London's people and all of its communities.

**Help us create a manifesto for Just Space.**
